CUES Currahee Cutters provide a number of solutions for pipe inspection and rehabilitation--from clearing blockages, debris, protruding laterals, and roots, to reinstating laterals in a CIPP liner. These are just a few of the applications for this product.

These cutters are specifically designed to reinstate wastewater service laterals, remove protruding taps, and brush-finish existing cuts. The cutters function in a range of 5.25"- 36" (133 mm - 914 mm) pipe, are equally effective in CIPP or fold and form liners, and can be installed on a CUES K2 truck-mounted cutter system. Both cutter systems perform optimally using 1000'- 1500' (305 m - 457 m) of cable and are operated with the CUES gamepad controller!

**ONE CONTROLLER FOR ALL SYSTEMS!**  
The Currahee Cutters operate off the same gamepad controller that operates CUES mainline, digital side-scanning, lateral-launch, and grout equipment.

# Currahee Cutters

## Features & Benefits

> VARIETY OF BITS AVAILABLE

> OPTIONAL PARTS AVAILABLE

> CURRAHEE CUTTER CAMERA

> WATER BLOW-OFF & WIPER

### CUES CUSTOM CUTTER VEHICLES

CUES custom CCTV/Cutter truck and trailer-mounted units include full capabilities for reinstating lateral services, removal of protruding taps, brush-finishing existing cuts, and pre and post TV inspection.

- Box Trucks, Step Vans, and Trailer-Mounted Units
- Dry freight box mounted for export
- Can be mounted with lateral-launcher equipment or joint & lateral sealing equipment in a self-contained unit
- Compressor can be mounted inside the truck, on the engine, or used with tow-behind
